

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

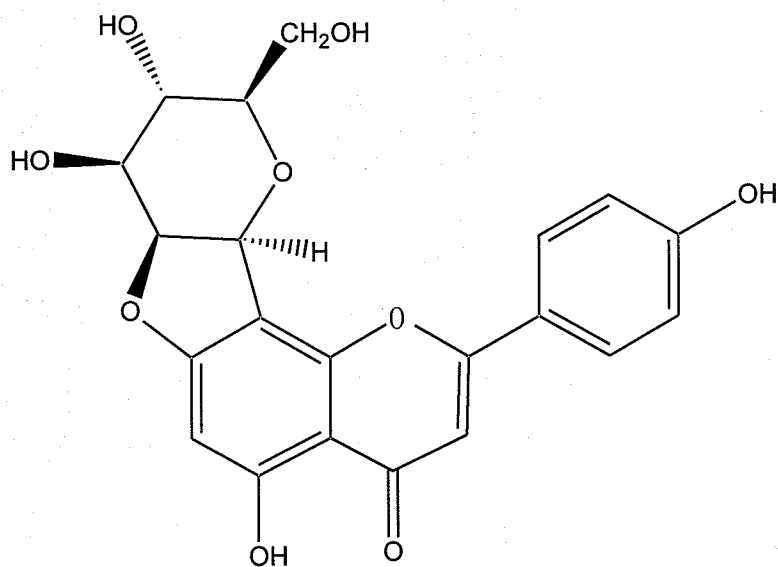

Listing of Claims:

1. (Previously Presented): An isolated flavone C-glycoside derivative of formula (1):

or a salt thereof.

2. (Previously Presented): An isolated flavone C-glycoside derivative of formula (2):

or a salt thereof.

Claim 3. (Canceled).

4. (Currently Amended): The pharmaceutical composition according to claim [[3]] 25, wherein said allergic disease is at least one selected from atopic dermatitis, contact dermatitis and pollenosis.

Claim 5. (Canceled).

6. (Currently Amended): The food composition according to claim [[5]] 19 in the form of any one of dietary supplements or other nutrient drinks, healthy drinks, healthy teas or other drinks.

7. (Currently Amended): The food composition according to claim [[5]] 19 in the form of any one of confectionery, breads, noodles, processed soy products, dairy products, processed egg products, fish cakes, fats and oils or seasonings.

Claim 8. (Canceled).

9. (Currently Amended): The cosmetic according to claim [[8]] 22 in the form of any one of skin care products, makeup products, hair cosmetics or bath products.

10. (Previously Presented): A method for the preparation of a pharmaceutical composition, food composition, or cosmetic having an anti-allergic effect, comprising adding at least one of the flavone C-glycoside derivative according to claim 1 or salt thereof to said pharmaceutical composition, food composition, or cosmetic.

Claims 11-13. (Canceled).

14. (Previously Presented): A method for the preparation of a pharmaceutical composition, food composition or cosmetic having an anti-allergic effect, comprising adding at least one of the flavone C-glycoside derivative according to claim 2 or salt thereof to said pharmaceutical composition, food composition or cosmetic.

15. (Withdrawn): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease a therapeutically effective amount of at least one of the flavone C-glycoside derivative or salt thereof according to claim 1.

16. (Withdrawn): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease a therapeutically effective amount of at least one of the flavone C-glycoside derivative or salt thereof according to claim 2.

17. (Previously Presented): A pharmaceutical composition containing at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative or salt thereof according to claim 1 to treat an allergic disease.

18. (Currently Amended): The pharmaceutical composition according to claim [[3]] 17 wherein said allergic disease is at least one selected from atopic dermatitis, contact dermatitis and pollenosis.

19. (Previously Presented): A food composition containing at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative or salt thereof according to claim 1 as an anti-allergic component to treat an allergic disease.

20. (Currently Amended): The food composition according to claim [[5]] 26 in the form of any one of dietary supplements or other nutrient drinks, healthy drinks, healthy teas or other drinks.

21. (Currently Amended): The food composition according to claim [[5]] 26 in the form of any one of confectionery, breads, noodles, processed soy products, dairy products, processed egg products, fish cakes, fats and oils or seasonings.

22. (Previously Presented): A cosmetic containing at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative or salt thereof according to claim 1 as an anti-allergic component to treat an allergic disease.

23. (Currently Amended): The cosmetic according to claim [[8]] 27 in the form of any one of skin care products, makeup products, hair cosmetics or bath products.

24. (Previously Presented): A method for the preparation of a pharmaceutical composition, food composition, or cosmetic having an anti-allergic effect, comprising adding at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative according to claim 1 or salt thereof to said pharmaceutical composition, food composition, or cosmetic.

25. (Previously Presented): A pharmaceutical composition containing at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative or salt thereof according to claim 2 to treat an allergic disease.

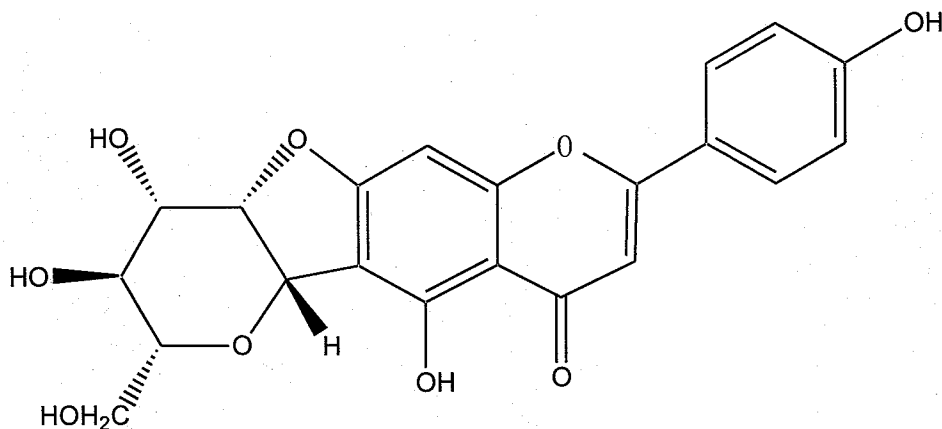

26. (Currently Amended): A food composition containing at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative or salt thereof according to claim 2 as an anti-allergic component to treat an allergic disease.

27. (Previously Presented): A cosmetic containing at least about 0.001 weight % dry solids of one of the flavone C-glycoside derivative or salt thereof according to claim 2 as an anti-allergic component to treat an allergic disease.

28. (Previously Presented): A method for the preparation of a pharmaceutical composition, food composition or cosmetic having an anti-allergic effect, comprising adding at least about

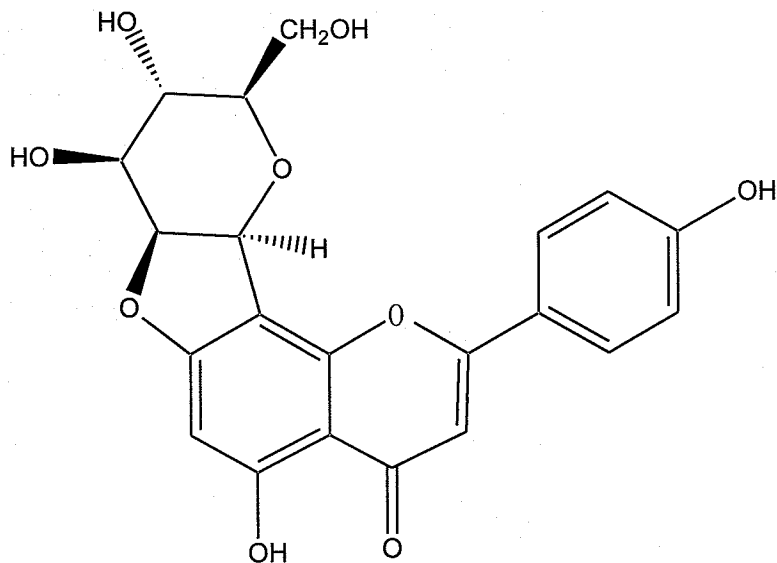

0.001 weight % dry solids of one of the flavone C-glycoside derivative according to claim 2 or salt thereof to said pharmaceutical composition, food composition or cosmetic.

29. (Previously Presented): A flavone C-glycoside derivative of formula (1) purified to at least about 0.001 weight % dry solids:

or a salt thereof.

30. (Previously Presented): A flavone C-glycoside derivative of formula (2) purified to at least about 0.001 weight % dry solids:

or a salt thereof.

31. (New): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease the pharmaceutical composition according to claim 17.

32. (New): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease the food composition according to claim 19.

33. (New): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease the cosmetic according to claim 22.

34. (New): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease the pharmaceutical composition according to claim 25.

35. (New): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease the food composition according to claim 26.

36. (New): A method of treating an allergic disease, comprising: administering to a patient in need of treatment for an allergic disease the cosmetic according to claim 27.
